

Sage 'Snowflake'

Salvia officinalis 'Snowflake'

Height: 60cm

Suitable for: A sunny spot in light dry soil. Impact in mixed containers.

Summary: This is a brand new sage which is both culinary and ornamental as once! The leaves have an attractive frosted finish which gives a silvery finish to the leaf. It will make a statement planted either in beds and borders or a feature container.
It can be used as culinary sage in the kitchen.

More information:

This is a brand new variety, we are hoping to update this section once we have more information and have spent some time growing it on here at the nursery.

This is a highly ornamental sage which will be a feature wherever you choose to plant it. We are assured by the breeders that it is fully hardy and withstood the 2022 heatwave and drought with flying colours.

All comments from customers who buy and grow on this new addition will be very welcome!
